BALSAMIC VINEGAR OF MODENA

PALAZZINA DUCALE ESTENSE

La nostra linea Giardini è una linea raffinata, ma al tempo stesso vivace e colorata che affonda le sue radici nella tradizione modenese delle antiche feste ducali che si tenevano proprio presso la Palazzina Ducale Estense di Modena (raffigurata in etichetta). Questa linea attraverso il suo semplice fresco ma ricercato design vuole far rivivere il clima di spensieratezza che si assaporava durante questi banchetti ducali e focalizzare l'attenzione su quello che è da sempre il "prezioso oro nero" di Modena: l'Aceto Balsamico.

Our products Line Giardini is refined, elegant and at the same time joyfully modern and colourful. It is rooted in the famous festivities "Feste Ducali" belonging to Modena tradition and taking place at the Estense Doge's Palace (as shown on labels). The design of this range is deliberately fresh and linear to recall the light-heartedness atmosphere of the Doge's banquets and to focus on the precious Balsamic Vinegar also known as the "Black Gold" of Modena.

La gamme Giardini, avec son style à la fois raffiné et vivace, puise ses racines dans la tradition Modénase des Fêtes Ducales qui avaient lieu au sein du Palais du Duc D'Este de Modène (dessiné sur les étiquettes). Cette ligne de produits au design volontairement frais et épuré, veut évoquer l'atmosphère légère et insouciante qu'on respirait lors des banquets organisés par la Maison D'Este et focaliser l'attention sur le précieux Vinaigre Balsamique, connu depuis toujours comme l' « Or Noir » de Modène.

CONDIMENT

BALSAMIQUE BLANC

Idéal pour: hors-d'œuvres, entrées, salades, légumes cuits, poisson et fruits de mer, volaille (poulet, canard, pintade, dinde...), carpaccio, fromages tendres, salade de fruits, marinades.

E' ottenuto dal mosto d'uve bianche acetificato e maturato in botti di Rovere in modo da ottenere un colore giallo oro.

La sua caratteristica più evidente è quella di lasciare invariato il colore delle pietanze regalandole profumi e sapori fruttati delicatamente acidi (validissimo sostitutivo dell'aceto di vino).

It is produced from white grape Must, acetified and aged in Oak barrels. It has a typical amber colour. Its most striking feature is that it does not alter the colour of dishes but adds a fruity and mildly acid aroma and flavour (excellent instead of wine vinegar).

Ce condiment est obtenu à partir du moût de raisins blancs acétifié et affiné dans des tonneaux de Rouvre de façon à ce qu'il prenne une couleur jaune-or.

Sa caractéristique la plus évidente est qu'il ne modifie pas la couleur des mets et offre des arômes et des saveurs fruités délicatement acides (remplace à merveille le vinaigre de vin).
